Every last farmer, join the non-partisan coalition!!! Every last farmer, join the Farmers' Self-governing Union (農民自治組合). The farmers of Saitama have the following demands for candidates running for the upcoming Prefectural Assembly election. Is each candidate faithful to these voices of their constituency? Vote only after checking. Why are the farmers impoverished? Isn't it because we have left everything up to the will of landlords and the rich, the government and the Assemblymen? Those who want to stop being poor must see the light. Those who have seen the light, join the farmers union. The non-partisan coalition is one step. Please read our newsletter Nomin Jichi (農民自治).
