Consult the union about reducing burdens. If we unite, lockouts and rent contracts are nothing. Look at the great victories at Sekiya, Otaho, and Manganji. One bale of rice is only six yen and fifty sen!! Cocoon prices are a third of last year's. Vegetables are as good as free. We can't even cover fertilizer and equipment costs. No matter what, we demand a fifty-percent reduction this year. Even with a full harvest, sharecroppers cannot eat. Our brothers at Takenouchi have risen. Start an assembly immediately and join hands with the ZNK (National Farmers' Union)!!
